

CloudApper® iPaaS for UKG

Effortless Integrations. Smarter Workforce Management.

Why Do UKG Customers Need **Integration?**

UKG solutions like UKG Pro, UKG Ready, and UKG Pro WFM power critical HR, payroll, and workforce processes. But most organizations also rely on other platforms for payroll, ERP, finance, recruiting, or analytics.

Manually connecting these systems often leads to:

CloudApper iPaaS bridges this gap,
ensuring your UKG environment seamlessly connects with all other business systems.

What is CloudApper iPaaS for UKG?

CloudApper provides a **seamless, fully managed integration platform** that connects **UKG** to any **third-party application**.

With **pre-built integrations for UKG**, customers can automate data sync, eliminate manual HR tasks, and unlock real-time insights—without depending on IT or custom development.

Key Benefits for UKG Users

Seamless UKG Integrations

Connect UKG with payroll systems, ERPs, recruiting systems, compliance tools, & more.

No-Code Customization

Integrations are tailored to your HR and payroll processes-without writing code.

Data Accuracy & Compliance

Bidirectional sync ensures employee records, time punches, & payroll data are always correct & audit-ready.

Faster Deployments

Go live in weeks with pre-built UKG connectors and CloudApper's managed services.

Future-Proof UKG Investments

Scale integrations as your workforce or systems evolve, without replacing your UKG solutions.

UKG Sync-Supported Data Flows & Architecture

CloudApper's **UKG Sync package** facilitates direct, point-to-point data integrations between UKG and third-party systems.

Employee Demographics

Bi-directional sync of core employee profile attributes (name, ID, department, job title).

Identity Provisioning / De-Provisioning

Automated account provisioning, updates, & deactivation in Okta or Entra, driven by UKG role changes.

Timecard Data

Transfer of clock-in/out details and total hours for payroll processing and workforce analytics.

Applicant Tracking Systems (ATS)

Seamless transfer of new hire data from ATS platforms into UKG HR modules once onboarding is complete.

Learning Management Systems (LMS)

Sync of course assignments, completions, and skill updates between LMS platforms and UKG.

Enterprise Integrations That Drive Data Transformation

PTO & Accruals

Sync leave requests across systems, standardize days/hours.

Tips Data

Capture & normalize gratuities for payroll compliance.

Step Progression

Automate pay grade updates from role changes.

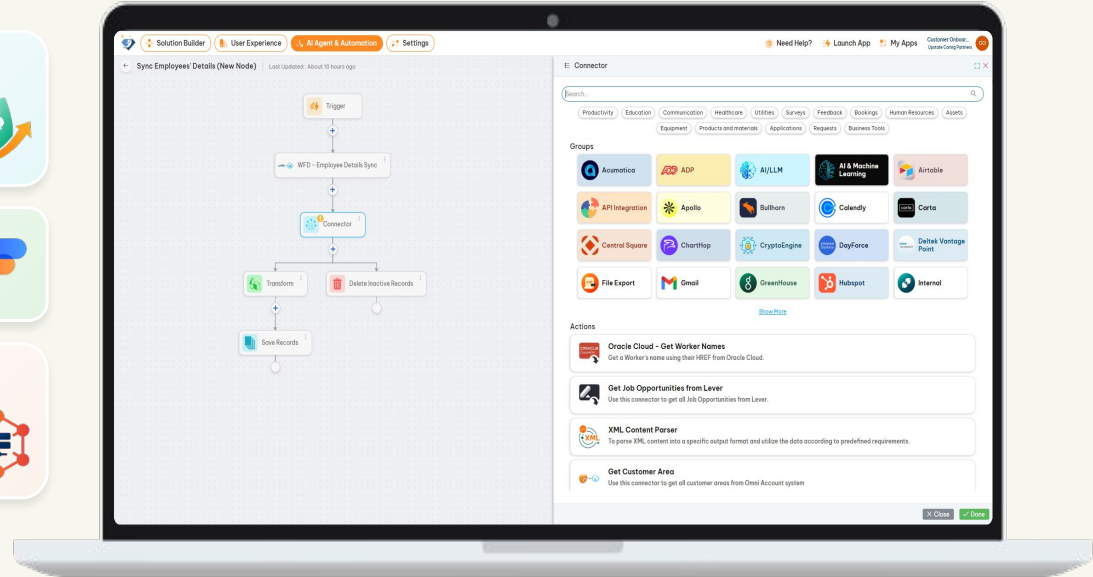

Rule Enforcement

Apply labor laws & company policies before sync.

Custom Data Capture

Collect attestations, allowances, certifications.

Why UKG Customers Trust CloudApper

For UKG Users

Multiple systems to connect
