

CloudApper® WorkBridge

Your Business Is Unique. Your HCM Should Be Too!

CloudApper WorkBridge is the AI-native layer that makes

Pro WFM

Ready

Pro

run the way you want.

What is **CloudApper WorkBridge** for UKG?

CloudApper WorkBridge is an AI-native platform that acts as a custom layer on top of your existing UKG system. We don't replace UKG; we personalize it. WorkBridge sits outside your core UKG system, e.g., UKG Pro, Ready, and Pro WFM—connecting, extending, and automating unique workflows, integrations, calculations, and features that UKG can't handle out of the box.

Key Benefits for Your Customers

Zero Risk

UKG core data
& stability
remain
untouched

Fast Delivery

Solutions
built in
days/weeks,
not months

Lower Cost

Dramatically
reduces custom
development &
PS hours

Future-Proof

Works across
the UKG suite
& 3rd-party
systems

Full Control

Customers &
partners can
build & maintain
solutions

The AI Layer That Makes UKG Fit Your Needs

Add Missing Features

Build custom web & mobile solutions, forms, AI chatbots, payroll calculations, and more — in days, not months.

Automate Complex Workflows

From multi-state compliance to union rules, WorkBridge handles them.

Future-Proof Continuity

Migrating from legacy systems or across UKG solutions? Your WorkBridge layer moves with you. No rebuilds. No data loss.

Connect Anything

Pre-built integrations to 100+ systems. Or build your own in minutes.

AI-Powered Insights

Dashboards, predictive analytics, and real-time alerts — all in one place.

You Call the Shots

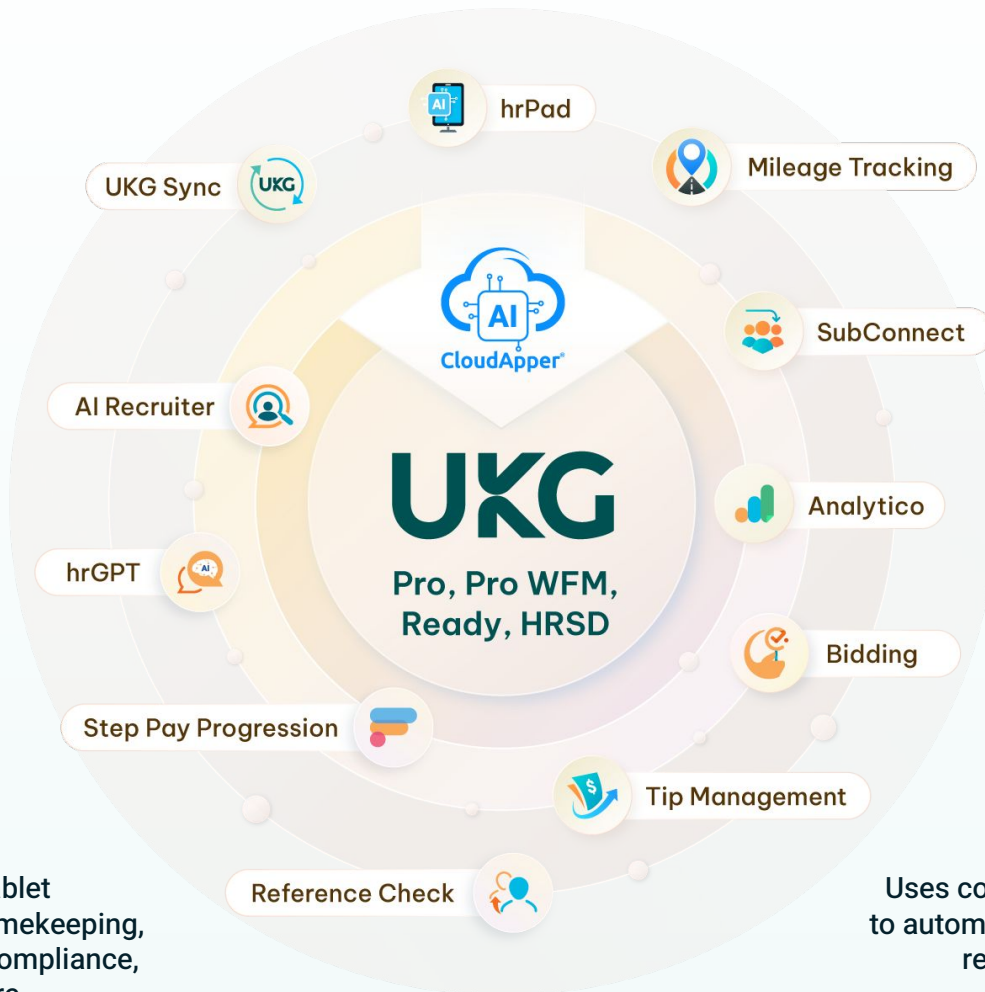

No more “that’s not supported.” If you can dream it, WorkBridge builds it.

Customize and Enhance Your UKG Experience

UKG customers often need capabilities that go beyond standard functionality — such as complex union rules, custom compliance logic, deeper integrations, specialized reporting, tailored mobile experiences, or AI-driven automation. CloudApper WorkBridge enables you to extend UKG quickly using an AI-native, zero-code platform, allowing you to build custom workflows, integrations, and intelligent assistants directly on top of UKG Pro, Ready, Pro WFM, or HRSD — without long development cycles or costly custom projects.

CloudApper WorkBridge: Leverage our Growing **Solution Portfolio**

hrPad

AI-powered tablet solution for timekeeping, HR support, compliance, training & more.

hrGPT

Uses conversational AI to automate HCM tasks, requests, and HR queries.

UKG Sync

Enables bi-directional data integration between UKG and third-party systems.

Analytico

Unleash the full potential of your data with stunning dashboard designs and personalized reports.

SubConnect

Substitute request automation for K-12 school districts. Works with Ready and Pro.

Reference Check

Replace manual outreach with automatic reference requests, mobile-friendly forms & instant data sync.

AI Recruiter

Automate hiring with AI to screen, schedule, and engage candidates—faster and smarter.

Mileage Tracking

Automatically track field employees' mileage by route and sync precise reimbursements to UKG.

Step Pay Progression

AI to automatically track and calculate wage progression for accurate payroll.

Bidding

Simplify shift bidding, job bidding, and vacation bidding into a single platform.

Tip Management

Capture & normalize gratuities for payroll compliance.

Real-World **Success Stories** by Vertical

Manufacturing

- Automated gang/line time adjustments, donning/doffing pay & incentive calculations (Pro WFM)
- Custom HRIS forms + vehicle inspection integrated with Pro WFM + Pro + HRSD
- Piece rate, specialty pay & bonus automation during WFC → Pro WFM migration

Retail

- Commission vs hourly pay automation with POS integration & retroactive adjustments (Pro + Pro WFM)
- Custom hrPad kiosk with location-based transfers & role-specific rules

Services & Distribution

- BUMEG management & automated PTO accrual enforcement (Pro)
- Field operations platform with route-based time tracking, billing & invoicing (Ready + Custom Platform)
- Mobile contractor onboarding with photo/document capture (Pro + HRSD)

Public Sector / Education

- Rebuilt legacy PAR, PDQ, leave requests & shift assignment workflows as modern apps (Pro + Pro WFM)
- Automated substitute teacher management & reference checks (UKG Ready)

Healthcare

- Union-driven step pay, seniority logic, rolling overtime & accrual carryover automation (Pro WFM)
- HIPAA-compliant mileage tracking for 3,000+ field staff tied to patient visits
