Field Employee **Mileage Tracker** for UKG Reimbursement

Automatically calculate field employees' mileage based on their travel routes and sync accurate reimbursements to UKG — with zero manual effort, no vendor lock-in, and full control.

What is the Field Employee **Mileage Tracker** Solution?

The Field Employee Mileage Tracker is an automation solution powered by CloudApper Workbridge that accurately calculates field workers' mileage using Google Maps route optimization and securely syncs exact distances, time, and pay codes to UKG Ready or Pro WFM for reimbursement.

Why Field Teams **Need** Automated Mileage Tracking?

Eliminate Manual Errors

No spreadsheets or guesswork — Mileage Tracker uses Google Maps-powered route optimization and AI-driven accuracy.

Fair & Timely Pay

Employees paid exactly for miles driven — auto-applies correct pay codes in UKG via Mileage Tracker automation.

Reduce HR Workload

No manual entry or audits — instant, secure sync to UKG payroll. Free HR for strategy.

Full Compliance & Audit Trail

Tamper-evident logs, exportable reports, and labor-law compliance — all enforced by Mileage Tracker governance.

How It Works: Simple, Seamless, AI-Powered

Step 1

Daily Mileage Log ↗

Calculate Mileage

Calculates optimal route and distance via Google Maps API, logged securely in Mileage Tracker.

Step 2

UKG Ready

02/02/2026

Managers Review

View, export, or audit routes, distances, & compliance reports in the Mileage Tracker dashboard.

Real-World Benefits

Accurate Payroll Calculations

AI ensures workers are paid fairly for the exact distance.

Reduced HR Workload

HR saves 10–20 hrs/week on mileage admin work.

Employee Satisfaction

Transparent, accurate pay builds trust and boosts morale.

Enhanced Efficiency

Mileage Tracker resolves payroll complexities.

Seamless UKG Integration

The solution sits outside UKG. No custom code needed.

Mileage Tracker is Built to Augment UKG

Google Maps Integration

Real-time route optimization and distance calculation.

Custom Data Capture

Collect job codes, vehicle type, or notes directly in-app.

UKG Sync

Auto-push mileage, time, and pay codes to UKG Ready.

Web Dashboard

Managers view live routes and export CSVs/PDFs.

Audit Ready

Tamper-proof logs, secure access, and compliance reports.
