

# **CloudApper AI Recruiter** for **ÜKG**

**Eliminate Hiring Challenges and Simplify  
Recruitment Using Conversational AI**

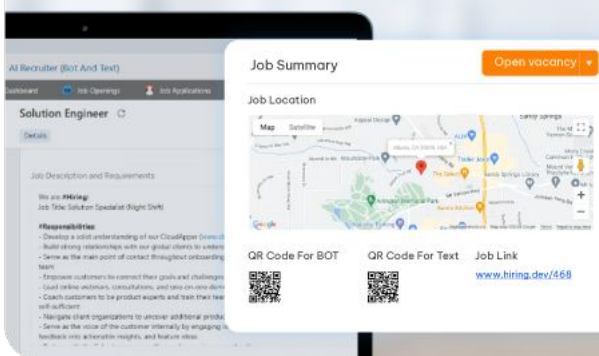

# Simplify Hiring with AI Recruiter

Lengthy applications and delays in communication can lead candidates to disengage, resulting in missed opportunities to hire top talent. CloudApper AI Recruiter for UKG simplifies the process using conversational AI. The solution seamlessly integrates with UKG and all leading ATS systems, helping to reduce complexities, nudge candidates, and reduce time-to-hire.

## Streamlined Job Posting

Pull job openings and locations from UKG and generate customizable signs with QR codes to advertise open positions.

## Simplified Job Applications

Candidates can apply for open positions by sending an SMS to your dedicated number or scanning QR codes.

## Seamless Candidate Data Collection

Eliminate lengthy processes by utilizing conversational AI to guide candidates through the process and automate data collection.

## Qualification Assessment

Leverage AI to assess candidate qualifications and suitability as you dynamically collect information, ensuring that top talent moves forward.

## Employee Referrals

Enable existing employees to share job openings with associates, friends, and family members, capturing reliable talent and reducing recruitment costs.

# Minimize Candidate Drop-Offs and Reduce Time-To-Hire With **Conversational AI**

## AI-Powered Chatbot

AI Recruiter's chatbot can answer common queries that candidates have. It can also provide job suggestions or help candidates apply for specific jobs.

## Automate Candidate Resume Generation

Create resumes using uploaded information. The solution also extracts data from resumes to fill out digital forms.

Recruiting

## Seamless Integration with UKG Solutions

Integrate with UKG and ATS systems to pull requisitions, locations, applicant information, create profiles, and sync resume and other candidate data.

## Easily Schedule Interviews

AI Recruiter automates the scheduling process. When an interview is scheduled, our solution automatically notifies the applicable parties (recruiter, hiring manager, etc.).

## Identify Top Candidates

AI Recruiter efficiently assesses resumes and identifies top candidates for respective positions by analyzing technical skills, certifications, and more.

## How Does AI Recruiter Work?

Our solution specialists will gather your requirements and quickly deliver a customized AI Recruiter solution that is tailored to your specific needs.

Our solution experts scope out your requirements.

We customize your AI solution(s) using our zero-code platform.

Your solution is delivered within days to boost your ROI.

The solution is integrated with existing UKG/ATS system

Using a chatbot, AI Recruiter collects required information about the candidates and can be configured to assess candidates' skills, knowledge, aspirations, and other qualities - automating the initial candidate screening process.

AI Recruiter not only assesses candidates and collects data but also responds to queries instantly and helps them throughout the process, enhancing communication, simplifying the process, and minimizing candidate drop-offs.

AI Recruiter automates time-consuming recruitment tasks such as resume screening, nudging candidates, and more – allowing recruiters to focus on strategic aspects of hiring to help identify potential candidates faster.

Using AI Recruiter minimizes unconscious biases in the recruitment process and makes decisions based on predefined criteria rather than subjective judgments – leading to a more diverse and inclusive workforce.

Automating routine recruitment tasks and eliminating manual processes result in cost savings and enhanced productivity, making AI Recruiter a cost-effective solution for optimizing recruitment processes.

When features are needed to optimize your recruitment process, CloudApper is here to help. Our AI-powered platform makes it easy to implement tailored solutions that solve problems and take your ATS & UKG system investment to unprecedented heights.

# Notable Customers

## About CloudApper

CloudApper AI empowers UKG customers by quickly providing custom features that enhance UKG software. These AI-powered solutions seamlessly integrate with UKG and other enterprise systems to address functional needs and accelerate ROI. Essentially, if a customer needs UKG to work a certain way, there's a good chance that we can deliver it. Our solutions can also be embedded within the UKG web and mobile applications, ensuring a seamless and user-friendly experience.

## Integration with UKG: Seamless Data Sync

Our solution effortlessly integrates with UKG, enabling smooth synchronization of employee information and labor data. This seamless connection ensures streamlined processes, enhanced accuracy, and real-time visibility for an optimized workforce
