Solution Community for UKG

Automate Tip Pooling & Gratuity Reporting in UKG

Managing employee tips manually can lead to reporting errors, compliance risks, and time-consuming administrative work.

CloudApper Tip Management for UKG automates tip capture, pooling calculations, and payroll synchronization—ensuring accurate reporting and compliance with tax regulations.

Ensure Payroll & Tax Compliance

CloudApper Tip Management maintains accurate daily tip logs and ensures tip earnings are recorded correctly in payroll systems, supporting IRS reporting requirements and reducing compliance risk.

How Tip Management Works in UKG

Step 1

Employees Report Tips

Employees submit cash and credit card tips using a mobile app or kiosk.

Step 2

Manager Reviews Tip Pool

Managers verify totals and apply tip pooling rules.

Step 3

Automatic Tip Distribution

Tip pools are calculated automatically based on predefined percentages.

Step 4

Payroll Integration

Tip earnings sync with your UKG system and are recorded for tax compliance.

How Tip Management Works

Hospitality

Restaurants, bars, hotels—servers, bartenders, housekeeping

Casinos

Dealers, pit bosses, cage cashiers—high-volume tip pooling

Personal Services

Salons, spas, taxis, rideshare—stylist /driver gratuities

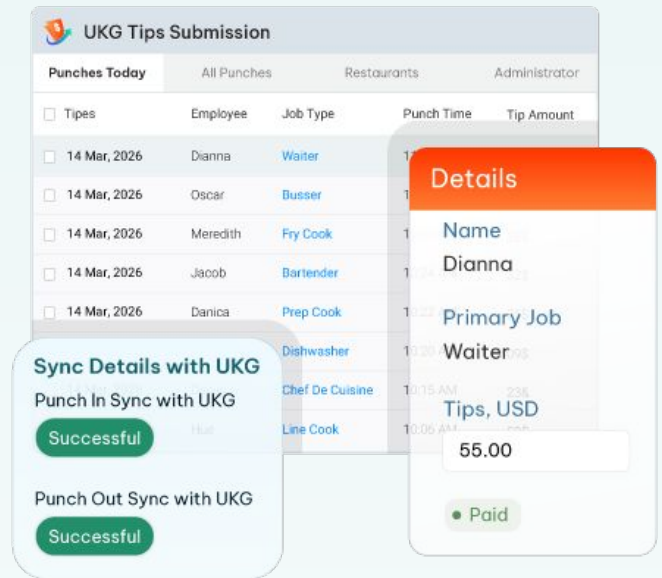

Food Delivery

Delivery drivers—cash + app tips, pooled distributions

Key Benefits

- Automate tip pooling calculations
- Reduce payroll errors
- Maintain IRS-compliant tip reporting
- Eliminate manual spreadsheet tracking
- Improve payroll accuracy and transparency
